**INSTALLED IN DOZENS OF MAJOR GRADING OPERATIONS!**

The Tally Pad™ is the most advanced method of entering the surface measure and grade of a hardwood board! The pad itself is detachable, and easily mounted right on your grade stick, letting you comfortably grade with one hand. The Tally Pad™ is easy to install, has a battery that will last for years, and is hard-as-stone, making it the most dependable way to tally lumber.

THE TALLY PAD,

BY FORESTRY SYSTEMS.

THIS IS HOW HARDWOOD LUMBER GRADING WAS MEANT TO BE.

Forestry Systems, Inc. 1.800.868.2559   V 2.0

"The Tally Pad™ is the best product Forestry Systems has ever released. I'm able to Tally 20,000 more board feet per day thanks to the Tally Pad™."

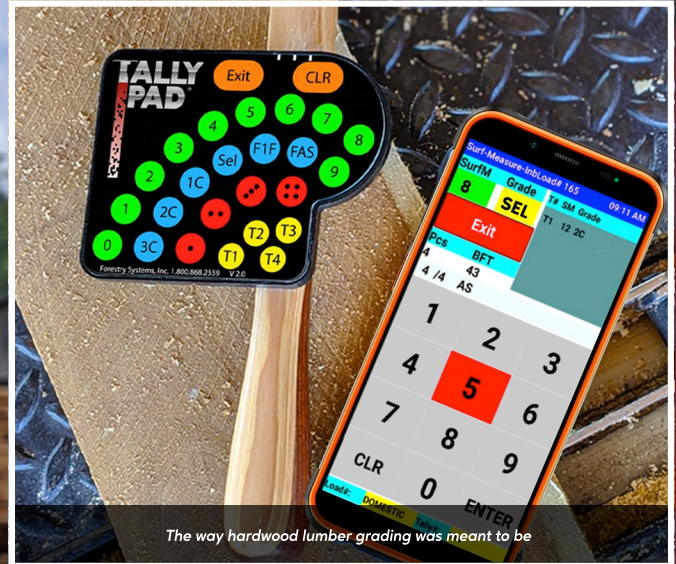

The most dependable way to tally lumber

Compatible with FSI's Chain Tally™ and Team Tally™ programs

Corey Hoffman, Hoffman Bros. Lumber

The Tally Pad™ works wirelessly with the FSI Chain Tally™ program. This modern, real-time device features 6 hard coded NHLA grades, as well as 4 wild card buttons that allow a grader to define their custom grades. This lets you to tally multiple loads (with the same grades) at once! The Tally Pad™ and FSI Chain Tally™ program also work with our LED display, letting your team to see the tallies being filled in real time.

The Tally Pad™ is also compatible with the FSI Team Tally™ program. Team Tally™ lets up to 3 graders to run on the same chain, filling different load orders at the same time! Multiple lumber inspectors can work as one, tracking production by grade, footage and percent. When paired with our LED display, you can track your live mill production as it is happening.

The way hardwood lumber grading was meant to be
